BY MATHEW BARRY

Seat Sale Opens Thurs. Morning, Sept. 12, at Box Office A Strong Savings Institution

The strength of a Savings Bank depends not alone on the size of its de-posits nor the number of its depositors, It depends rather upon the kind of securities in which the management invest their funds and the care with which these securities are looked after. The Danby Mirror evidently thinks these conditions are well met in the Hyde Park Savings Bank. It says:

Bank. It says:

Beginning July 1st the Lamoille County Savings Bank and Trust Co. of Hyde Park, Vt., will pay four per cent. Interest on deposits remaining in its care for a year or more. This is a particularly strong savings institution, and during its existence has invested the money of its depositors wholly in the state and has never lost a dollar. Hon. Carroll S. Page, one of the most able business men in Vermont, and the state's honored ex-Governor, is president of the bank—the kind of a president who knows at all times how the affairs of the bank are being conducted, and is ever active in promoting its interests and protecting its depositors against possible loss.
